Welcome! We invite you to explore this unique Service Leadership program, where you will have the opportunity to step more fully into your personal leadership while practicing a powerful community building model. Joining with other passionate leaders, you will amplify your dedication to making a positive difference in the world, while manifesting funding for a variety of worthwhile philanthropic projects.

The Service Connection is a program for leaders who are ready to serve in collaboration with other like-hearted individuals. Throughout this 7 month program, leaders are sustained and enriched within this learning community as they explore living and giving within an endless stream of Universal Flow.

This leadership program provides experience and training in:

- **Regenerative Community:** By listening deeply to one another, and to ourselves, we connect with what is most essential, replenishing the flame of leadership that lives within each of us.
- **Co-Creative Leadership:** By partnering with other talented-creative individuals, we can do so much more than any of us can do alone.
- **Transformative Philanthropy:** As we co-create ways of Serving together to give to causes we care about, we receive all that we need to live as beacons for others to do the same.

This is a circle of leaders who have chosen to “be the change they wish to see in the world” while discovering ways to empower others to do the same. Together, we are creating a new paradigm for living & manifesting the resources to serve in the world.

The Service Connection is sponsored by Inspired Connections, a social entrepreneurship devoted to inspiring living and giving in service to the Whole. Through this leadership program, individuals have an innovative way to spark positive change in the world and affiliate with a like-hearted community of service-oriented leaders.

This program is unique in that participants

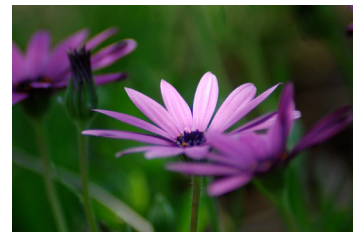

- collaborate on a collective service project where each team will select and sponsor a philanthropic initiative to be funded from a portion of the circle’s collective training fees;
- experience a full cycle of leadership training which includes mentoring and potential for receiving compensation for facilitation/leadership and referrals;

- learn by integrating the inner (contemplative “being”) and outer (focused “doing”) aspects of enlightened service to prepare you for leading from wholeness and inspiring positive change in the world;
- engage in a community of support and collective wisdom for the benefit of the whole, co-creating the experience through mentoring and shared leadership.

The Service Connection is a call to action and a way to bring light to some of the problems the world is facing. This is a program for leaders, especially coaches, philanthropists and circle conveners, who resonate with the concepts for living in connection with a core purpose and giving to the world from a place of joyful service in a stream of limitless flow.

HOW THIS PROGRAM "FLOWS" AS A LEADERSHIP TRAINING

The Service Connection is an experience of sharing the natural abundant flow of your most expansive self, providing both individual practice and community support for serving as enlightened creators & leaders.

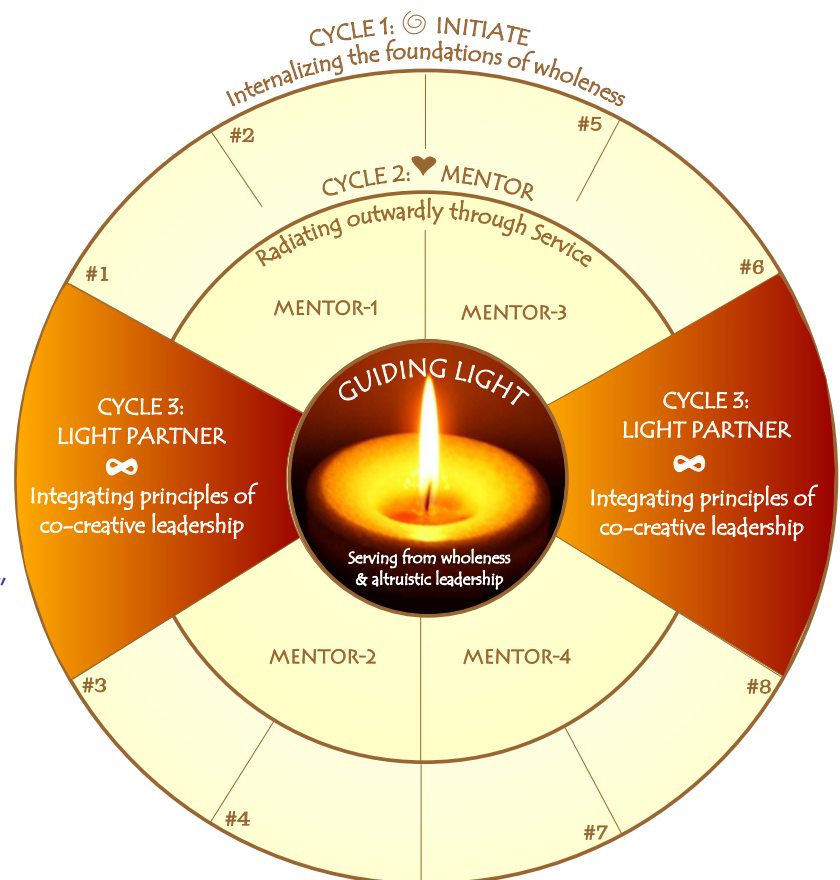

The Service Connection leadership program is made up of these four consecutive cycles that comprise the 7 month* training:

CYCLE 1: a 7-week "Initiate" training in a model of wholeness based on the guiding principles of enlightened service;

CYCLE 2: a 7-week "Mentor" training as a guide to 2 Initiates where you will further embody the guiding principles of enlightened service;

CYCLE 3: a 7-week paid internship as a "Light Partner," where you will co-facilitate the weekly calls, provide leadership/program support, including assisting with marketing activities;

CYCLE 4: a final 7-week paid facilitation in which you will serve as a "Guiding Light" circle facilitator, mentor and inspirational guide for all program participants. You will also serve as leader of the collective Service project.

Within each cycle, there are specific learning materials and requirements to fulfill. Throughout this program, you will build leadership competencies through experience and active participation in each cycle, including engaging in teleCircles, self-guided study, e-journals, mentoring, a collective service project, and circle facilitation.

* 7 months is the minimum time it takes to complete the 4 training program cycles and may vary depending on when new Initiates enroll in the program. The teaching materials will be available regardless of the time it takes to fill the Initiate positions, however the collective service project and the facilitators' compensation is funded from the training fees.

This unique training program is grounded in the very concepts it teaches. The Service Connection provides a powerful framework for learning in community. Throughout this program, you will have many opportunities to both give & receive within a continuous cycle of shared wisdom. You are the co-creator of an experience that has the potential to transform not only your life, but the world as well.

*The universe operates through dynamic exchange...
giving and receiving are different aspects
of the flow of energy in the universe.
And in our willingness to give that which we seek,
we keep the abundance of the universe circulating in our lives.
